

# Instruction Set 10 - KING

## Step 1: Assembling the Snowball Row Corner Units

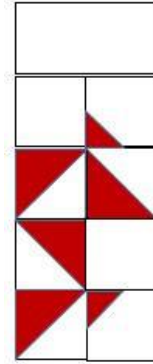

You will be using the remaining PSB, HST, and the  $3\frac{1}{2}'' \times 6\frac{1}{2}''$  Background rectangles, and the  $12\frac{1}{2}'' \times 15\frac{1}{2}''$  Background rectangles cut in Set 8: Step 5.

Medium Corner Inside Unit

Using (1)  $3\frac{1}{2}'' \times 6\frac{1}{2}''$  Background rectangle, (2) PSB, (2)  $3\frac{1}{2}''$  Background squares, and (4) HST, construct this unit as shown.

Make 2.

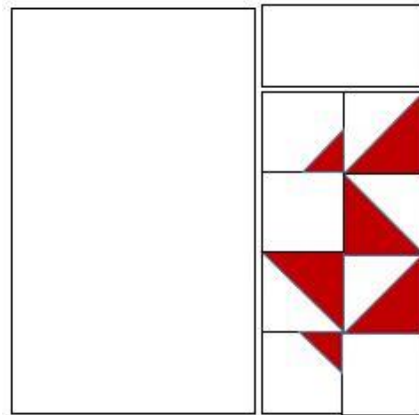

Please note this step and the following step are for 2 different types of units.

Medium Corner Outside Unit

Using (1)  $3\frac{1}{2}'' \times 6\frac{1}{2}''$  Background rectangle, (1)  $12\frac{1}{2}'' \times 15\frac{1}{2}''$  Background rectangle, (2) PSB, (2)  $3\frac{1}{2}''$  Background squares, and (4) HST, construct this unit as shown.

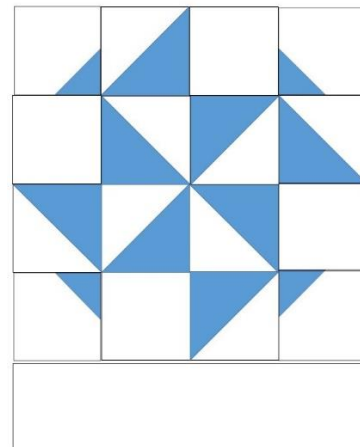

Make 2.

## Step 2: Assembling The Snowballs Rows, Part 1

Using a Snowball from Set 8: Step 4 and a Background  $3\frac{1}{2}'' \times 12\frac{1}{2}''$  rectangle you cut in Set 8: Step 5, arrange as shown.

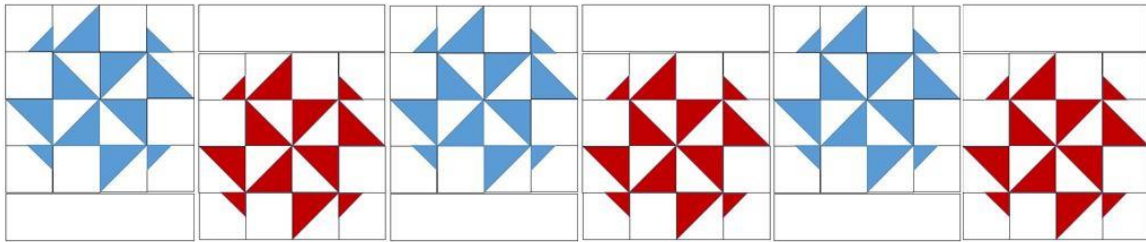

Pin, sew, and press toward the rectangle. Repeat this process for each of your Snowballs for a total of 26 units (14 Light and 12 Medium).

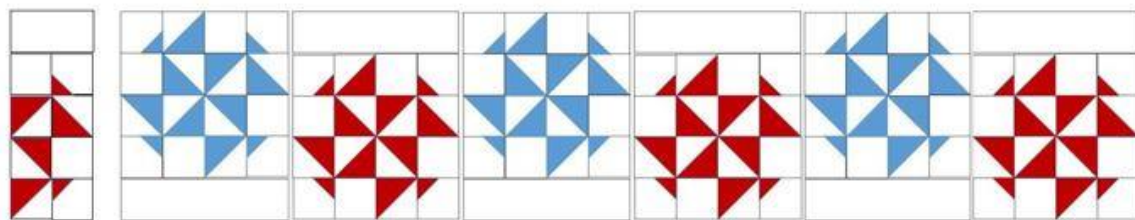

### Step 3: Assembling The Snowballs Row, Part 2

A. Using the units from Step 2, arrange as shown. Pin, sew, and press.

Note: The blue blocks indicate the M/B SB. The red represents the L/B SB.

B. Take 1 Medium Corner Inside Unit and arrange it to the left of the row, as shown:

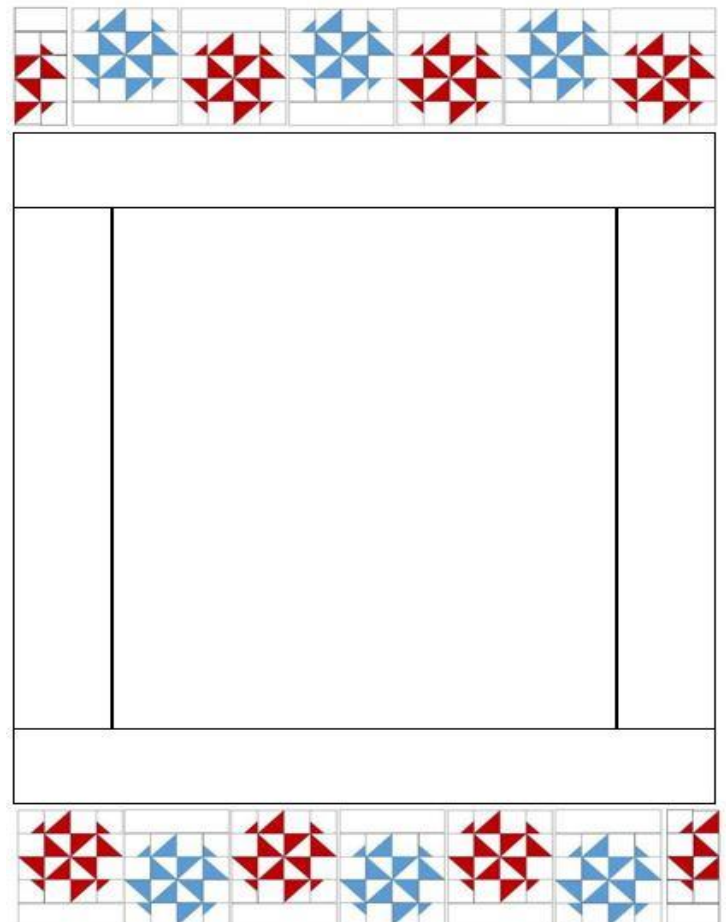

Make 2 rows.

### Step 4: Adding The Snowballs Rows, Part 1

Take the 2 units from the last step and arrange on the top and bottom of your Set 9: Step 3B unit as shown.
